

VISIONET

VisiRelease®

Revolution in Residential Mortgage Lien Release, Assignment Processing & Recording

Visionet's VisiRelease suite offers servicers a cutting-edge technology solution to significantly lower operational costs and boost productivity while maintaining quality and meet compliance requirements.

Visionet's deep domain expertise in e2e lien release and advanced technology (VisiRelease) offers seamless integration with internal or 3rd party research vendors. We use sophisticated OCR technology for high-speed creation of assignments & lien releases that evidence a clear chain of title. Our state-of-the-art E-recording platform integrated with Simplifile and CSC / Ingeo, consistently exceed the industry average penetration rate.

Differentiators

Linked OCR Tool	Interactive Client Portal with Exception Management & Tasking	Automated Borrower Letter Workflow	Collateral Tracking Module
